

I do not want any changes made to the current DO NOT CALL law in NJ. I have seen a dramatic decrease in unwanted telephone calls from solicitors since this law went into effect. If I want to contact someone I have done business with, I will do so. I do not want to receive calls telling me that my credit limit has been raised or that I can transfer a balance or I can sign up to protect my credit or any of the other myriad reasons they come up with to bother me. I pay for my phone line and it is for my convenience, not anyone else's!
